## Transcripts for listening

### Talk 1

Student 1: Did you know there are animals living all around us?

Student 2: Really? Where can we see them?

Student 1: Well, animals can be found in many places. For example, we can see them in parks, jungles and in our farms and homes!

Student 2: But what about other places?

Student 1: Another place to see many animals is at a zoo. Have you been to a zoo before?

Student 2: Yes, I have! It was so much fun seeing all the different animals there. But who takes care of the animals in the zoo?

Student 1: That's a great question! The people who take care of the animals are called zookeepers. They work really hard to make sure the animals are happy and healthy.

### Talk 2

Student A: Do you know where ants live?

Student B: I think ants live under the ground, in dead leaves and plants.

Student A: That's right! They live and work in group. Did you know that ants have different jobs in their group?

Student B: No, I didn't. What are some of them?

Student A: Well, some ants collect food, others take care of the eggs or defend the group.

Student B: Wow, ants are quite ordered! Speaking of food, do you know what ants eat?

Student A: I think ants eat sweet things, like sugar or fruit.

Student B: That's correct! They also eat other insects and even dead animals.

Student A: How do you feel about ants?

Student B: They are amazing animals.

### Talk 3

A zoo in England has something like school for its little penguins. The little penguins must learn to swim and hunt in a small pool. A woman teaches them. It is important for the little penguins to learn it because when they grow up the zookeepers will move them to a bigger pool with bigger penguins. The little penguins must fight for food with the others. If they cannot hunt, They cannot eat. If they are not good at swimming and hunting, they will not find anything.

### Talk 4

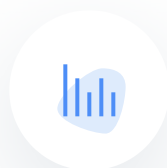

Pandas are **11 endangered** animals that only live in the **12 forests** of china. Pandas are from bear **13 family** Their favorite food is bamboo. Sometimes they eat small animals and insects too. Chinese destroy the **14 natural** home of these animals and make roads and houses so pandas do not have any place to live and anything to eat. There are very few pandas **15 alive** now.
