Modern technologies have enabled us to have easy access to information, become more creative, experience fast communication, travel easier, and have a more comfortable life. Have you ever imagined a world without the Internet, tablets, mobile phones, airplanes, and vacuum cleaners? Most people cannot do that, as technology is the miracle of our time.</p> <p>But using new technologies has changed people's lifestyle in a way that harms their lives in this century as well. Some technologies are dangerous to our health and can harm our body. Using mobile phones or surfing the net for long hours can increase people's blood pressure and cause sleep problems. Playing video games for long hours makes people nervous and harm their heart and nervous system. Listening to music by headsets can be harmful to one's hearing and even brain.</p> <p>True / False</p> <p>29. Technology has had both negative and positive effects. True False 30. Six positive effects of technology are listed in the passage. True False 31. Playing video games doesn't have any effect on our body. True False</p> <p>32. What is the positive effect of modern technologies? </p> <p>33. How can using mobile and surfing the net be harmful? </p>	۹

4	<p>متن زیر را با دقت بخوانید و سپس به سوالات پاسخ دهید.</p> <p>About one hundred years ago, many people learned and spoke French when they met people from other countries. Today, most people speak English when they meet foreigners. It has become the new international language. An international language is a language for communication between people from different nations who do not have a common native language. There are more people who speak English as a second language than people who speak English as a first language. Why is this?</p> <p>There are many reasons why English has become so popular. One of them is that English has become the language of business and without it, it would be hard for the businessmen to enter an international market. Another important reason is that English is the language of science. Before the second World War, scientific publications were in French, German and English. This made some problems: if scientists wrote in their own languages, they would miss out on or fail to use others' discoveries. With an international language, researchers know what to expect, and how to find information. Therefore, after 1940s most scientific books and articles were published in English.</p> <p>34. What is an international language? -----</p> <p>35. Why should businessmen learn English? -----</p> <p>36. French was an international language about 70 years ago. a. True b. false 37. English has more native speakers than learners. a. True b. false</p> <p>38. Miss out on is synonym of a. use b. try c. lose d. take</p> <p style="text-align: center;">Best of luck!</p>	۱۰
