To have a healthier **lifestyle**, people need to do certain things. First, they should check their general health. They also need to check their family health history. In this way, they understand if anyone in the family has had a special illness.

Another thing is paying attention to physical health. For example, eating healthy food helps people live longer and healthier. Eating unhealthy food makes people gain weight, and increases the risk of heart attack. Eating balanced servings of bread, vegetables, fruits, protein, and oil is necessary for everyone. Also, daily exercises improve people's health condition. Recent research has shown that a good social life decreases the risk of death. Sadly, some people do not visit their relatives very often these days. They are busy with their work and usually use technology to communicate.

Above all, the most important thing to enjoy a good life is having emotional health. Praying decreases stress and gives people a calm and balanced life. People with this lifestyle have had a better life. The key point, however, is having a plan for the way they want to live and take care of their physical and emotional health.

1. Is checking the family health history useful? Why?

- a. Yes, because they understand if anyone in the family has had a special illness.
- b. Yes, because it is useful to their emotional health.
- c. No, because they may be depressed after hearing the truth.
- d. No, it may be dangerous for them.

2. The word "Lifestyle" in line 1 means.....

- a. only people's style of wearing
- b. the way people live
- c. the habit of serving food
- d. a longer life

3. What is the most important factor to enjoy a healthier life?

- a. visiting relatives
- b. eating fruits
- c. doing exercise
- d. having emotional health
